Personal Statement:

Personable and friendly individual with excellent communication skills. Very good work ethic proven during my prior work in other jobs. I have good leadership and problem solving skills with the ability to work as a part of a team or on my own. Loyal, trustworthy and conscientious with excellent time keeping skills and a flexible attitude.

I moved to France with my family in 2007 where we lived for 3 years in the French countryside. I began school while there, at the time speaking no french when I started. I adapted quickly and soon learnt the language while in school and on a day to day basis with my friends. It was a fantastic experience for my family and I, one which we thoroughly enjoyed. We then moved back to Ireland when I was 6 years old and I had to quickly re-adapt to living in Ireland again. I believe this really illustrates my ability to quickly learn and adapt to new environments
